

APPENDIX 12.2

VISUALISATIONS

Viewpoints (Reference Figure 12.10)

A12.2.1 Of the following viewpoints those highlighted in bold have been identified to be illustrated by visualisations to demonstrate a representative overview of the range of visual effects.

A12.2.2 All photography was taken in February and March 2008 using a standard 50mm lens and an eye height of 1.7m AOD.

1. **South Liverpool / Speke Boulevard;**
2. North of Golf Course;
3. **Spike Island;**
4. **West Bank;**
5. Runcorn Promenade;
6. Wigg Island entrance;
7. **Halton Castle;**
8. Wigg Island Nature Reserve;
9. Trans-Pennine Trail at Cuerdley Marsh;
10. M62 from footpath overbridge between junction 7 and 8;
11. **Moor Bridge Lapwing Lane;**
12. **Pickering Pasture / Hale Point;**
13. Weston Link Junction;
14. Footbridge (Central Expressway);
15. **Astmoor Road;**
16. **Victoria Road.**

A12.2.3 The terrain and urban model used as a basis for the visualisations has an accuracy of +/- 20cm across 1km and when incorporated into the Terrain and Urban Model has a precise fit.

A12.2.4 Since the final detailed design will be proposed in the future some interpretation of appearance and finished surfaces and colours has been necessary.
