

Description of development and scope of works

Works to the existing highway network (specifically A533 Silver Jubilee Bridge) arising from the provision of the Mersey Gateway Bridge will comprise:

- a) Alterations and reduction in carriageway width across the Silver Jubilee Bridge to accommodate the provision of new footpaths and cycle paths;
- b) Construction of a new toll plaza, toll booths and associated structures on the reconfigured section of the Queensway highway situated 250m to the north of the Silver Jubilee Bridge;
- c) Removal of part of the Widnes Eastern Bypass from the Silver Jubilee Bridge including the embankments, viaduct and main carriageway; and
- d) Demolition of part of the A533 dual carriageway to Liverpool as part of the MGP de-linking works.

Ancillary works will include general earthworks, kerb realignment, embankments and retaining structures. Finishing works will include street lighting, road markings, safety fencing, road signage, gantries and landscaping.
