Web Content Accessibility Statement

Accessibility Statement for The Mersey Gateway

The Mersey Gateway is committed to ensuring digital accessibility for people with disabilities. We are continually improving the user experience for everyone and applying the relevant accessibility standards to enhance usability for all visitors.

Conformance Status

The Web Content Accessibility Guidelines (WCAG) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA.

www.merseygateway.co.uk meets the standards expected of **WCAG**.

Measures to Support Accessibility

The Mersey Gateway takes the following measures to ensure accessibility of our website:

- Including accessibility as part of our internal design and development practices.
- Ensuring site content can be navigated using keyboard controls and screen readers.
- Maintaining clear visual contrast for text and interactive elements.
- Periodically reviewing and testing our website for accessibility improvements.
